# OVERVIEW

---

The Cessna Citation is a globally recognized business jet. With straightforward engineering and avionics, the Citation is popular with owners, pilots, and maintainers for its ease of operation.

The S/II 550 Citation, also known as the Super II offers impressive performance. With a nearly 2,000 nm range, it operates with a service ceiling of 43,000 ft. You'll get to your destination faster with a 410 kts true airspeed.

With seating for 8, an aft lavatory, and folding tables, your passengers will enjoy their trip. The S/II can store 77 cubic feet of baggage throughout the aircraft.

This Citation has no major damage history and an updated avionics suite. It is fresh out of maintenance and compliant for Part 135 operations.

When you're ready to move up to a light business jet, the Cessna Citation S/II 550 is an excellent choice.
