OVERVIEW

The Cessna 208 Caravan is a truly versatile airframe. Certified in 1984, over 3,000 airframes have been delivered to civil and military customers for passenger, utility, and cargo operations.

The 208B Grand Caravan EX is a slightly stretched version of the 208, certified to carry up to 11 passengers. The aircraft is equipped with an 867hp Pratt and Whitney PT6A-140 turboprop engine. With the PT6A, the Grand Caravan can achieve improved climb rate and cruise speed, at a similar fuel burn to the base 208 engine. Over 500 Grand Caravan EX airframes have been delivered.
